

## **THE QUESTIONS THEY DON'T DARE ASK US**

Some Camden doctors and campaigners have drawn up the questions that NHS Camden should be asking you, but won't.

1. **Would you like brand new GP surgeries at your local GP led Health Centre or polyclinic hub, even if**
  - Your own practice might disappear
  - It might be run by a private companyYes?   
No?
  
2. **If you want to talk to a doctor about an ongoing or serious problem concerning yourself or your family, would you prefer:**
  - To see the same doctor of your choice at a location near to you?
  - or
  - To travel further to see a doctor or nurse who does not know you but who can see you more quickly?
  
3. **Would you prefer:**
  - Your existing GP surgery to move to a GP Led Health Centre, polyclinic hub or hospital?
  - or
  - Your surgery to be improved or expanded where it is now?
  
4. **In a time of limited resources would you like your money spent:**
  - On new GP ventures which have no evidence behind them to show that they will improve patient care?
  - or
  - Improving existing GP practices in Camden?
